

Editor's Letter

Welcome to issue 4

Once again we have combined the world's leading designers within the interior design, fashion and lifestyle sector, along with innovative products that would enhance any inspiring designer.

We have some wonderful case studies such as the historic hotel Schweizerhof in Bern, Jason's Atherton's Pollen Street Social and Harvey Nichol's OXO Tower Bar.

With Decorex and 100% Design just around the corner the next couple of months are going to be exciting and extremely busy, page 42 & 43 could be the answer, escape to luxury an enchanting Island located 5 miles off the coast of Cancun Mexico, or treat yourself for all the hard work with a piece of memorial jewellery an inspirational idea from Nick Granham P44, or if your feeling really brave let Weald Property Search and find your ideal home.

In this every developing world living and working space is always a problem, which developers and contractors frequently encounter with apartments, studio, flats, houses and commercial spaces that are awkwardly arranged. These kinds of challenges are not a problem for Kelly Fallon interior designer P35.

We have already received some great features & stories which are lined up for the next edition, if you have a product or case study that you would like to send in for consideration, please feel free to drop me an email.

Kind Regards

R. Keating
